## : ©hipsmall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation, and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

A Product Line of
Diodes Incorporated
PAM8904
18VPP OUTPUT PEIZO SOUNDER DRIVER

## Description

The PAM8904 is a piezo sounder driver with integrated a charge pump boost converter. The PAM8904 is capable for driving a ceramic/piezo sounder with 18 Vpp from a 3 V power supply. The charge pump can operate in either of a $1 \mathrm{X}, 2 \mathrm{X}$ and 3 X mode.

The boost converter operates at a fixed frequency of 1.0 MHz and provides a 9 V output with a minimum number of external components. The PAM8904 can drive up to $15 n \mathrm{~F}$ loading. PAM unique drive technology provides small inrush current, low EMI and high efficiency.

PAM8904 built-in automatic shutdown and wake up that guarantees longer battery life.

PAM8904 features thermal shutdown, over current protection, over voltage protection and under voltage lock-out.

The PAM8904 is available in a 16pin U-QFN3030 package.

## Features

- $\quad$ Supply voltage Range From 2.3 V to 5.5 V
- 18Vpp Output from a 3V Supply
- Integrated Boost Converter Generates 9V Supply
- Input signal 20 Hz to 300 KHz
- No Voltage Cross Output At Shutdown Mode
- Low Current Consumption
- Automatic Standby and Wake-up Control
- Available in Space Saving Packages 16pin QFN package

## Pin Assignments

## U-QFN3030-16L

NC VIN CP2 VOUT

CN1 GND VO2 NC

## Applications

- Health Care System
- Alarm Clock
- Security Device
- Home Appliance

## Typical Applications Circuit

 Diodes Incorporated

## Pin Descriptions

| Pin Name | I/O/P |  |
| :---: | :---: | :--- |
| VIN | P | Power Supply |
| EN1 | I | Charge pump mode select 1 |
| EN2 | I | Charge pump mode select 2 |
| DIN | I | Signal Input |
| CN1 | I | Capacitor 1 Negative Terminal |
| GND | P | Ground |
| VO2 | O | Positive Output |
| VO1 | O | Negative Output |
| CN2 | I | Capacitor 2 Negative Terminal |
| CP1 | I | Capacitor 1 Positive Terminal |
| VOUT | O | Boost Output |
| CP2 | I | Capacitor 2 Positive Terminal |
| NC | - | No Connect |

## LIFE SUPPORT

Diodes Incorporated products are specifically not authorized for use as critical components in life support devices or systems without the express written approval of the Chief Executive Officer of Diodes Incorporated. As used herein
A. Life support devices or systems are devices or systems which:

1. are intended to implant into the body, or
2. support or sustain life and whose failure to perform when properly used in accordance with instructions for use provided in the labeling can be reasonably expected to result in significant injury to the user.
B. A critical component is any component in a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or to affect its safety or effectiveness.

Customers represent that they have all necessary expertise in the safety and regulatory ramifications of their life support devices or systems, and acknowledge and agree that they are solely responsible for all legal, regulatory and safety-related requirements concerning their products and any use of Diodes Incorporated products in such safety-critical, life support devices or systems, notwithstanding any devices- or systems-related information or support that may be provided by Diodes Incorporated. Further, Customers must fully indemnify Diodes Incorporated and its representatives against any damages arising out of the use of Diodes Incorporated products in such safety-critical, life support devices or systems.
