

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Push Button, Switch, Buzzer and LED Pilot Light

Quick Selection Guide

This quick selection guide is designed to help you quickly and accurately select all of the components needed to create a custom Push Button assembly, or to select the correct pilot device for an application. Simply determine which features are required, and find a part number that meets the requirement on the following pages. Many accessory items are available, for a truly custom fit.

Push Button and Selector Switch Assembly

The operator will be inserted into the panel.

The holder will be secured at the back by two screws or nut.

The contact block is snapped on.

Pilot Light Assembly

Pilot lights and buzzers are simple to select and install. Simply determine the color, lens type, voltage, and find the correct part number - no other components are required.

Just insert the pilot light in the the hole of the panel.

The pilot light will be secured at the back by the plastic nut.

The pilot light has been installed.
