

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

# Photoelectrics Through-beam, Transistor Output Type PD70CNT12..

- Doors and Entrance control
- Range 12 m
- Modulated, infrared light
- Supply voltage: 10 to 30 VDC
- Output: 100 mA, NPN or PNP type
- Make or break switching
- LED for output indication or power supply
- . Protection: reverse polarity, short circuit, transients
- Cable versions or M8 connector
- Emitter mute
- CE and UL325 approved

#### **Product Description**

The PD70 sensor family of Photoelectric sensors is specially designed for Doors and Entrance control to meet the requirements in the door market. The slim housing design fits inside the alu-

minium frame of e.g. sliding doors.

The emitter has a test input to turn it off for evaluation of the sensor function.

Available in 10-30 VDC version.

# **Specifications Emitter**

| Rated operational volt. (U <sub>B</sub> ) | 10 to 30 VDC                 |
|-------------------------------------------|------------------------------|
| Ripple (U <sub>rrp</sub> )                | ≤ 10%                        |
| Supply current                            | ≤ 20 mA                      |
| Protection                                | Reverse polarity, transients |
| Test input                                |                              |
| Test High                                 |                              |
| Emitter off                               | 5 to 30 VDC                  |
| Emitter on                                | < 2.5 VDC or not connected   |
| Test Low                                  |                              |
| Emitter off                               | < 2.5 VDC                    |
| Emitter on                                | 5 to 30 VDC or not           |
|                                           | connected                    |

| Light source                        | LED, 850 nm         |
|-------------------------------------|---------------------|
| Light type                          | Infrared, modulated |
| Optical angle                       | < ± 5°              |
| Indication function Power supply ON | LED, green          |

# **Specifications Receiver**

| Rated operating dist. (S <sub>n</sub> )       | 12 m                           |
|-----------------------------------------------|--------------------------------|
| Blind zone                                    | None                           |
| Temperature drift                             | ≤ 0.2%/°C                      |
| Hysteresis (H)                                | 10 - 15%                       |
| Rated operational volt. (U <sub>B</sub> )     | 10 to 30 VDC (ripple included) |
| Ripple (U <sub>rrp</sub> )                    | ≤ 10%                          |
| Output current                                |                                |
| Continuous (I <sub>e</sub> )                  | ≤ 100 mA                       |
| Short-time (I)                                | ≤ 100 mA,                      |
|                                               | (max. load capacity 100 nF)    |
| No load supply current (I <sub>o</sub> )      | ≤ 16 mA                        |
| Minimum operational current (I <sub>m</sub> ) | 0.5 mA                         |
| Ambient light                                 | 100.000 LUX                    |
