

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

# PDMM-20 Pocket Multimeter

## Don't let the size fool you!

### Conveniently fits into any pocket.

Take an inventory of the items in your pocket - pen, pencil, non-contact voltage detector, and PDMM-20 pocket multimeter. Greenlee's PDMM-20 pocket multimeter is so compact and lightweight that you won't even notice it in your pocket. What you will notice is the tremendous amount of features that have been designed into this unique multimeter! The PDMM-20 is an auto-function, low impedance multimeter. Auto-function means that you do not have to switch a dial or worry about selecting the incorrect function. The PDMM-20's

sophisticated microprocessor chip technology knows what you are measuring. Low impedance means that stray or "ghost" voltage is eliminated. The PDMM-20 also has a non-contact voltage detection feature! Just think, with one little tester you get all this performance!

Just like all Greenlee test and measurement products, the PDMM-20 is backed by a Lifetime Limited Warranty. With a safety rating of Category III 300V, the PDMM-20 is the tool for your everyday electrical needs.

## PRODUCT FEATURES

- **Auto-select mode** for hassle free use.
- **Low impedance** eliminates stray or "ghost" voltage readings.
- **AC/DC voltage** measurement.
- **Hassle free**, automatic measurement of voltage and resistance.
- **Autoranging** for quick, convenient measurements.
- **Non-contact voltage detection** for identifying live lines without contacting conductors.
- **Intelligent Auto-Off** for longer battery life.
- **Low battery indicator**.
- **Resistance** measurement.
- **Audible continuity** test.
- **Frequency measurement** in voltage mode.
- **Capacitance** measurement.
- **6000-count LCD** for high resolution.
- **Lifetime** Limited Warranty.

### Contents/Accessories -

- (1) 3 V battery (CR2032)
- Carry Case

## SPECIFICATIONS

**Voltage measurement:** 6.00, 60.00, 450.0 V

**Resistance measurement:** 600.0  $\Omega$ ; 6.000, 60.00, 600.0 k $\Omega$ ; 6.000 M $\Omega$

**Capacitance:** 100.0, 1000  $\eta$ F; 10.00, 100.0 mF

**Display:** 6000-count LCD

**Measurement Category:** CAT II, 450 V per IEC 61010-1; CAT III, 300 V per UL-3111-1

## ORDERING INFORMATION

CAT. NO.	UPC NO.	DESCRIPTION	QTY
