Pibow 3 (Raspberry Pi 3, 2, & B+)

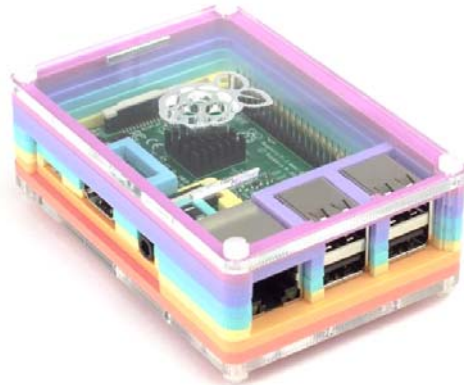

Rainbow PIM147

Ninja PIM148

Tangerine PIM166

Candy PIM188

Pibow 3. The most stylish, add-on friendly, and protective case for the Raspberry Pi 3!

We've redesigned Pibow to be compatible with both the Raspberry Pi 3, 2 and B+. Due to changes in the layout of the Raspberry Pi 3 older Pibows (one's with a 2/B+ label) will not work ideally with Raspberry Pi 3!

Features:

- Compatible with Raspberry Pi 3, 2, and B+
- Fully HAT compatible
- Protects your beloved Pi!
- Now includes a free extension layer
- Etched port markings and cable escapes
- Clear top and base leave Raspberry Pi visible
- Leaves all ports accessible
- Made from lightweight high-quality cast acrylic
- Great for hacking and tinkering!
- Made in Sheffield, UK

Crafted out of ten unique layers including a transparent top and base that leave your beautiful Pi visible inside. Each layer is laser-cut from colourful high-quality cast acrylic and once stacked they securely contain a Raspberry Pi 3, 2 or B+ while leaving the primary ports, including the camera port, and display port accessible.

Weighing only 92 grams the case is lightweight and ideal for mounting to any surface. No tools are required for assembly or disassembly.
