Chipsmall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

littleBits Arduino Coding Kit

SKU: PIS-0134

YOU BRING THE CODE. WE'LL BRING THE ELECTRONICS – This kit contains 8 of our favorite prototyping modules. It's everything you need to get started with electronics and programming.

Description

YOU BRING THE CODE. WE'LL BRING THE ELECTRONICS.
This kit contains 8 of our favorite prototyping modules. It's everything you need to get started with electronics and programming. Make your own Etch-a-Sketch™! Program a visual display! littleBits will walk you through the basics using the Arduino programming environment, without the breadboarding, soldering or wiring normally required. Perfect for hackers, designers, makers and tinkerers of all levels.

- Includes everything you need to get started (battery + power included!) right out of the box
- Build with 8 Getting Started sketches, including a DIY Etch-a-Sketch™, Mouse Control and hundreds more from Arduino's community!
- Communicate with software (Processing, MaxMSP, Flash etc...)
- Snap modules easily to 3 inputs and 3 outputs on the Arduino module, as well as additional I/O for advanced hardware interaction
- Access to community support from Arduino AND littleBits
  The Arduino module is also available individually here . Check out our Tips + Tricks or our forum for more ideas on using Arduino!
