Pi Supply

littleBits Deluxe Kit

SKU: PIS-0137

Make circuits in seconds with the littleBits Deluxe Kit – no soldering, programming or wiring required. It has 18 color-coded modules that can make over 5 million circuit combinations. Make a robot that responds to sound, or trick out your bike with glowing handlebars – these are just two of our favorite projects you can make. Guaranteed to keep curious minds engaged and building for hours!

Description

The littleBits library is the easiest electronic construction kit around! Conceived of at the MIT Media Lab, littleBits makes electronic modules with specific functions such as lights, motion and sound. Simply snap them together with magnets to use them for prototyping, learning, and fun. littleBits has won over 20 toy awards on its path to demystify electronics and spark the world's next generation of inventors!

Make circuits in seconds with the littleBits Deluxe Kit – no soldering, programming or wiring required. It has 18 color-coded modules that can make over 5 million circuit combinations. Make a robot that responds to sound, or trick out your bike with glowing handlebars – these are just two of our favorite projects you can make. Highlights of this kit include the sound trigger, light wire, and both the servo and DC motors. Guaranteed to keep curious minds engaged and building for hours!

The biggest kit littleBits make with 18 powerful modules. Whether you're a professional designer or just getting started with electronics, Deluxe Kit gives you the flexibility you need to make big, powerful projects. No soldering, wiring, or programming required!

At littleBits, they believe we need to create the next generation of problem-solvers and interventions need to occur early. The time is ripe to create the building block of the 21st century and to empower everyone to be an inventor.

- Over 1 million circuit combinations possible
- Includes booklet of 15 projects and with hundreds more projects online
- Kit features popular modules like DC motor, servo, sound trigger, and much more
- Create popular projects like a GoPro Revolver, Light-Up Shoes, Voice Activated Lego Car, art robots and many more!
- Endless hours of fun and creative possibilities
