imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

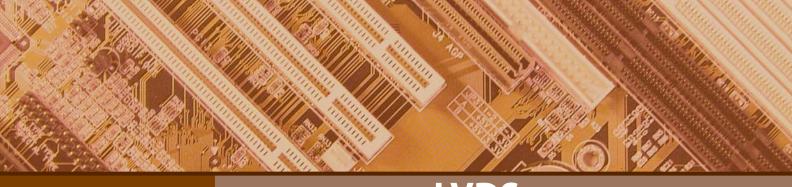

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

PORTNOTE[®]

LVDS Output Port - Surge Protection

Solution Products

TBU-CA085-200-WH

1 00 L

CDSOT23-S2004

Design Kit

Objective

Low voltage differential signaling (LVDS) utilizes a 1.25 V electrical signal. This solution protects LVDS which is exposed to high level surges.

Solution

2 TBU* High-Speed Protectors: TBU-CA085-200-WH
2 GDTs: 2031-42T-SM-RPLF
2 Switching Diode Arrays: CDSOT23-S2004

Compliance

IEC 61000-4-5; Class 4 and 5; 4000 V / $\,$ 95 A

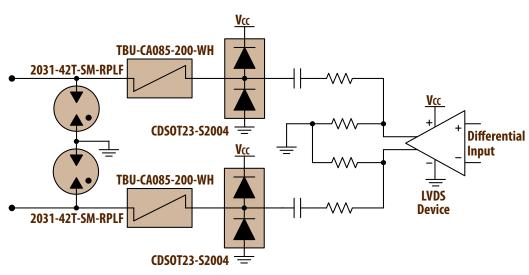

Alternate Recommendations

Other PortNote[®] Solutions:

• LVDS: Input Port - Surge Protection Specific solutions are also available for lower levels of IEC 61000-4-5 as well as the ITU-T and GR-1089-CORE documents.

Benefit

This solution provides line output protection without impairing the LVDS signal up to 3 GHz.

The schematic above illustrates the application protection and does not constitute the complete circuit design. Customers should verify actual device performance in their specific applications.
