Lithium Ion Battery - 2200mAh 7.4v

PRT-11856 ROHS

This high discharge LiPo is a great way to power any R/C, robotic, or portable project. This is an excellent choice for anything that requires a small battery with a lot of punch. The voltage is low enough not to tax your regulating circuits, and the discharge rate is high enough to accommodate a lot of electronics and a few small motors.

The battery has two cells and outputs 7.4V storing 2200mAh of charge. Because this is a dual cell battery pack, a special charger is needed. This battery is not compatible with single cell chargers. A compatible charger is listed below.

Note: This battery is not available to ship to Alaska or Hawaii, or through any express services (2-day, overnight), or internationally. This is temporary! Check out our blog post for more information.

Additionally orders may take longer to process and therefore do not qualify for same-day shipping. Sorry for any inconvenience this may cause!

Note: Care should be taken not to short circuit or overtax these batteries because they don't have any built-in protection circuit.

Note: This item is non-returnable. If this item arrives damaged or is not functioning properly, please do not hesitate to contact us to see if further actions may be taken.

Weight: 206g (7.26oz)

Replaces:PRT-10471

FEATURES

- 7.4V 2-cell pack
- 2200mAh of charge
- 30C continuous discharge rate
- JST-XH charge plug
- Dean's Connector discharge leads
- 138.5mm x 47.5mm x 24.5mm
