Foldable design is ideal for using around corners and tight spaces, by multiple users, or anywhere you need a flexible power strip that can fold in half to accommodate multiple environments.

Description

The PSF2408 provides a 12-amp, 120v power strip with 8 standard NEMA 5-15 outlets in a rugged, all-metal, mountable housing that folds in the middle. It allows for both vertical and horizontal mounting with additional mounting clips to ensure the pivot stays in place. The PSF2408 is ideal for a variety of uses including office, rack-mount, workbench, industrial and telecom applications. With a NEMA 5-15P, 15-ft. power cord, you don't have to install it next to outlets you already have; it can be mounted across the room and deliver reliable power where you need it most. With a foldable center pivot, the PSF2408 can go around corners, be used by more than 1 person, and fit in smaller spaces. A lighted and covered On/Off switch helps prevent accidental shut-offs, while a 12-amp circuit breaker guards against dangerous circuit overloads. Its sturdy all-metal extruded aluminum housing stands up to demanding network, laboratory or factory environments.
