

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Push Mounts and Assemblies

specifications

Fasteners for automotive wire harnesses shall provide fifty pounds of pull-out force with no more than 45° maximum rotation of the installed bundle. When installed in the panel, the fastening method shall firmly retain a minimum wire gauge of 12 AWG within ± 10mm (.394") of the initial installation point. The mounts shall require no more than 14 pounds of insertion force. Mounts with wider cable tie slot capability may have a proportionately higher insertion and pull-out capability. Mounts shall be self-tensioning to prevent rattles and degradation of the mount over the life of the vehicle. The material for the mounts and the cable ties shall be heat stabilized Nylon 6.6, black. Application temperature range shall be -60°C to 115°C (-76°F to 239°F).

technical information

Material:	Heat Stabilized Nylon 6.6
Flammability:	Meets UL94 V-2, passes FMVSS 302
Color:	Black
Application temperature range:	-60°C to 115°C (-76°F to 239°F) continuous
Chemical resistance at 21°C (70°F):	Excellent resistance to common transportation fluids including: ethylene glycol, gasoline, jet fuel, hydraulic fluid, transmission fluids and 10% sodium chloride solution
Insertion force:	14 pounds maximum*
Environmental compliance:	Meets 2000/53/EC ELV and 2002/95/EC RoHS standards and all industry standards for hazardous material content

*Insertion force for PUM-925 is 30 pounds at nominal hole size.

key features and benefits

Unique alternating barb design	Provides increased retention and lower insertion force, reducing operator fatigue and improving productivity
Umbrella fir tree design	Locks securely into position and can be rotated 360 degrees, giving you a wider application range than fixed barb designs; also seals against dust and moisture
Exclusive contoured anvil head	Firmly retains a minimum wire gauge of 12 AWG (2mm Ø) within ± 10mm (.394") of the initial installation point, providing a low profile design
Assemblies with PLT cable ties	Provide routing and anchoring for wire harnesses, significantly reducing harness assembly time
Production Parts Approval Process (PPAP), 3-D, and International Materials Data Sheet (IMDS) capability	Meets the needs of Verband der Automobilindustrie (VDA) and Automotive Industry Action Group (AIAG) compliant documentation, allowing parts to be listed to IMDS site ID

applications

PANDUIT push mounts with umbrellas and push mount assemblies are a reliable and cost effective solution for securing wire harnesses in the automotive, marine, white goods, heavy equipment and mass transit-rail markets. Designed for 4.6mm to 10.0mm through holes and variable panel thicknesses, the push mounts insert easily and exceed

manufacturers' requirements for primary anchors of wire harnesses. The PANDUIT push mounts with umbrellas are compatible with all standard PAN-TY[®] Cable Ties up to the standard 50 pound loop tensile ties. The PUM-925-M30 mount has expanded slot capability which allows the use of the 120 pound loop tensile Light-Heavy cable ties.

Push Mounts with Umbrella

4.6mm – 4.9mm (.18" – .19") panel hole diameter range:	PUM-049-M30
6.3mm – 7.1mm (.25" – .28") panel hole diameter range:	PUM-071-M30
9.0mm – 10.0mm (.35" – .40") panel hole diameter range:	PUM-100-M30
8.8mm – 9.3mm (.34" – .36") panel hole diameter range:	PUM-925-M30

Push Mount Assemblies with PAN-TY[®] Cable Ties

4.6mm – 4.9mm (.18" – .19") panel hole diameter range:	PUM-049-2S-D30
6.3mm – 7.1mm (.25" – .28") panel hole diameter range:	PUM-071-2S-D30
9.0mm – 10.0mm (.35" – .40") panel hole diameter range:	PUM-100-2S-D30
8.8mm – 9.3mm (.34" – .36") panel hole diameter range:	PUM-925-3H-T30

Push Mount Assembly with DOME-TOP[®] Barb Ty Cable Tie

6.3mm – 7.1mm (.25" – .28") panel hole diameter range:	PUM-071-B2S-D30
