

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Aluminum
Polypropylene
Cast Iron

Small Stainless Steel Connection Head Shown with Quick Release Fitting

Connection Heads are used to provide a way to connect the sensor leads to the instrumentation that is used for monitoring or controlling the process. The leadwires from the sensor are connected to a terminal block mounted inside the connection head. In turn, the wiring to the monitoring equipment is also connected to the terminal block and that allows for the signal to be read.

Connection heads are available in a variety of different styles. Individual terminal blocks are also available in fiberglass or ceramic. Transmitters are available for mounting inside the connection head. We also offers custom labeling, weatherproof and explosion proof rated connection heads.

FEATURES

- NEMA 4 Rated
- Custom Labeling Available:
 - » Standard with Measurement Specialties label
- Terminal Blocks:
 - » Fiberglass standard
 - » Ceramic available upon request

APPLICATIONS

- Motors
- Generators
- Process
- HVAC

performance specifications

NEMA Requirements: Standard connection heads at the minimum, meet NEMA 4 requirements

Labeling: Standard with RTD Company label, available without a label or with a custom label

Terminal Blocks: Fiberglass is standard, other materials available

Surface Finish:

Cast Iron style is coated with black, heat resistant baked enamel
Small Stainless Steel style has an electro-polished finish
