Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

RJ Field

Ethernet Connection System for Harsh Environment – Industrial Ethernet

● ● ● ● ● ● ● ● ● ●

Description

RJField allows you to use an Ethernet Class D / Cat. 5e connection for 10 BaseT,100 BaseTX or 1000 BaseT networks in harsh environments:
• Sealed against fluids and dusts (IP67)
• Shock, Vibration and Traction resistant
• No cabling operation in field and <u>no tools required</u>
• Mechanical Coding / Polarization (4 positions)

With the patented RJStop® system you can use **a standard RJ45 cordset** in a metallic plug which will protect it from shocks, dust and fluids.
No hazardous in-field cabling and grounding !
Electronica 2004 :
RJField awarded « Component Product of the Year »

ROHS compliant :
« N » : Nickel plating
« B » : Black coating

Transform your RJ45 cordset into a Harsh Environment Connector !

This metallic plug is connected into a receptacle, using a fast ¼ turn bayonet coupling mechanism (MIL-C-26482 type) providing both "audible and visual" coupling.
On the receptacle, one female RJ45 is soldered onto a PCB allowing for the following back terminations :
• another female RJ45
• a RJ45 cordset
• Solder termination

The RJ45 cordset shielding is transmitted to the RJ45 receptacle through lateral grounding fingers.
For an outstanding EMI protection, the conductive plating versions (Ni, Cd) with metallized receptacle inserts, transmit the shielding to the connector shells and finally to the panel.

Applications

• Robotics
• Industrial Process Control
• CNC Machines
• Special Machines
• Motion Control
• Data Acquisition and Transmission in Harsh Environment
• Tele-maintenance

DOC-000041-ANG-J Sept 2006

1

Amphenol ®

Main Characteristics

Data Transmission

• 10 BaseT, 100 BaseTX and 1000 BaseT networks

Cat 5e per TIA/EIA 568B and ClassD per ISO/IEC 11801

Mechanical

• Bayonet coupling ("Audible & Visual" coupling signal)

• 4 mechanical Coding / Polarization possibilities by the user (insert rotation)

• RJ45 cordset retention in the plug : 100 N in the axis

• Mating cycles : 500 min

Environmental Protection

• Sealing : IP67

• Salt Spray :   48 h with Nickel plating

                              > 96 h with black coating

                              > 500 h with Oliv Drab Cadmium

• Fire Retardant / Low Smoke : UL94 V0 and NF F 16 101 & 16 102

• Vibrations : 10 – 500 Hz, 10 g, 3 axes : no discontinuity > 10 nano s.

• Shocks : IK06 : weight of 250 g drop from 40 cm [15.75 in] onto connectors (mated pair)

• Humidity : 21 days, 43°C, 98% humidity

• Thermal Shock : 5 cycles at - 40°C / +100°C

• Temperature Range : - 40°C / +85°C

Universal : Can be used with all standard * RJ45 Cat.5e cordset brands

Assembly instructions

1. Push down the RJ45 cordset latch, and fix it inside the insert
2. Press in and click the other part of the insert
3. Insert in the metallic housing

RJStop®

Patent
Easy and Safe : No field cabling tools required

CODE C

CODE D
* The RJStop® system allows the use of standard RJ45 cordsets regardless their Brand. However, Amphenol Socapex can provide Cat5-5e cordset with reinforced jacket to be used in harsh environments (shocks, oils, fuel,…). Please consult factory.

6 : Plug, Plastic Gland
6M : Plug, Metal Gland
2 : Square Flange Receptacle
2PE : IP67 In line square flange Receptacle
2PEM : IP67 In line square flange Receptacle, Metal Gland
7 : Jam Nut Receptacle
7PE : IP67 In line Jam Nut Receptacle
7PEM : IP67 In line Jam Nut Receptacle, Metal Gland

Back Terminations (For Receptacles only)
1 : Female RJ45
2 : RJ45 Cordset

Shell Finishes
B : Black Coating
N : Nickel (Note : with this version, the inserts are metallized)
G : Olive Drab Cadmium (Note : with this version, the inserts are metallized)

Cordset Length (For Receptacles with "2" Back Termination only)
03 : 0.3 meters [11.81 inches]
05 : 0.5 meters [19.68 inches]
10 : 1 meter [39.37 inches]
15 : 1.5 meters [59.05 inches]
00 : 8 tined holes at the rear of the PCB to solder the cable

Cabling Configuration (For "2" Receptacles only)
100BTX : 10/100 Base TX
568A
568B

Examples :   - Nickel Plug: **RJF 6 N**
              - Black square flange receptacle, Female RJ45 Back termination: **RJF 2 1 B**
              - Oliv Drab cadmium jam nut receptacle, 1.5m [59.05"] 100 BTX cordset termination: **RJF 7 2 G 15 100BTX**
              - Black in line square flange receptacle, 30cm [11.81"] 100BTX cordset termination: **RJF 2PE 2 B 03 100BTX**
              - Nickel Jam Nut Receptacle, solder termination : **RJF 72 N 00**
Accessories :
Metallic cap
