

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

RM024 Series

2.4 GHz ISM-Band Multipoint Wireless Modules

INDUSTRY-LEADING FLEXIBILITY AND PERFORMANCE IN M2M

Laird's RM024 series modules are built on the core technology and RF expertise of Laird's seven generations of Frequency Hopping Spread Spectrum (FHSS) devices. An improved RF frontend and a long list of configurable options yields the best of both worlds: very low power consumption and extremely long range. The RM024 excels in serial cable replacement scenarios, signage, agricultural applications and

more. Available in 125 mW (FCC) or 10 mW (CE) variants, the RM024 provides the most reliable wireless link in the ISM band with several inbuilt mechanisms to reject interference, boost throughput, and achieve unparalleled range.

UNPARALLELED PERFORMANCE IN EXTREME ENVIRONMENTS

POWERFUL API FOR A MORE **INTELLIGENT NETWORK**

In difficult environments with extreme The RM024's upgradeable firmware and programmable API allow the device to be demands, no ISM-band RF module performs like the RM024. Built for industrial customized for a broad range of use cases, temperatures from -40°C to 85°C (-40°F to advanced functionality via AT 185°F), the RM024 is perfect for any commands. Using the Laird Configuration environment. Interference avoidance **Utility** for programming and testing, the mechanisms bring reliability to uncertain RM024 may be placed into a wide variety of deployments. The broad range of output configurable modes. The RM024's power options and sleep modes allows you architecture allows for large networks of up to 16 million nodes. The RM024's link is to opt for high power and long range (up to 4km) or short range and low power. The robust, but much simpler than technologies modules' improved RF frontend achieves an like Zigbee. The RM024 offers an intelligent RF data stream of up to 500 kbps. network that excels even in the presence of co-located systems.

PERSONAL SUPPORT FROM **DESIGN TO MANUFACTURE**

Laird's support team is always standing by to provide integration support, analysis, and troubleshooting for all currently supported hardware. Working on-site with Laird engineers in the US, Europe, and Asia, Connectivity Solutions Support is your personal bridge to all of Laird's software, experience, and expertise. Laird guarantees a fast response and is dedicated to seeing product through design to manufacturing. Laird's online support center serves as an archive of many common questions, as well as hundreds of support documents and software files.

Features at a Glance

- Improved RF Frontend 2.4GHz FHSS radio, 280 kbps or 500kbps data rate, optional external antenna and range of 2.5 miles (4km)
- Unique server/client implementation, fully configurable with a maximum network size of 16 million devices
- Robust interference avoidance due to FHSS implementation, strong immunity to interference and multipath signals
- Access to the Laird Configuration Utility, a complete software utility for configuration and testing.

Application Areas

Serial Cable Replacement

Digital Signage / Displays

Industrial Automation

RM024 ISM-band Modules

Datasheet

Category	Feature	Implementation			
General	Form Factor	SMD-ANT+U.FL, Pluggable-ANT+U.FL, SMD-U.FL, Pluggable-U.FL			
	Antenna	External antenna through U.FL connector or dual antenna with			
		integrated antenna and U.FL			
	Serial Interface Data Rate	Baud rates from 1200 bps to 230400 bps. Non-standard baud			
		rates are also supported.			
	Channels	FCC: 42 or 78 selectable channels,			
		CE: 42 selectable channels			
	Security	Channelization, System ID, and Vendor ID			
	Min. Flash (EEPROM) Memory	1000 Write/Erase Cycles			
	Endurance				
Transceiver	Frequency Band	2400 – 2483.5 MHz			
	RF Data Rate (Raw)	280 kbps or 500 kbps selectable			
	Hop Bin Spacing	900 kHz over 79 hops, 1500 kHz over 43 hops			
	RF Technology	Frequency Hopping Spread Spectrum			
	Modulation	MSK			
	Maximum Output Power Conducted	FCC: +5 to +21 dBm selectable,			
		CE: +3.5 to +10 dBm			
	Supply Voltage $2.3 - 3.6 \text{ V} \pm 50 \text{ mV ripple}$				
	Current Draw	RM024 Version	FCC (125 mW)	CE (10 mW)	
		100% Tx	136 mA	40 mA	
		1/8 Tx (when selected)	40 mA	40 mA	
		100% Rx	36 mA	36 mA	
		Rx average (idle current)	9.5 μΑ	9.5 mA	
		Deep sleep	.38 μΑ	.38 μΑ	
	Receiver Sensitivity (1% PER)	-95 dBm at 280 kbps RF rate; -94 dBm at 500 kbps RF rate			
	Range (based on external 2.0 dBi	Outdoor (line-of-sig	nt) Indoor (es	timated)	
	antenna at 280 kbps RF Data Rate	FCC 2.5 miles (4 km)	1300 ft. (4	l00 m)	
		CE 0.6 miles (1.0 km)	328 ft (10	0 m)	

ORDERING INFORMATION

RM024-S125-C-30	SMT	125 mW	u.FL Jack	RM024125C30
RM024-S125-M-30	SMT	125 mW	Chip Antenna	RM024125M30
RM024-P125-C-30	Pluggable	125 mW	u.FL Jack	RM024125C30
RM024-P125-M-30	Pluggable	125 mW	Chip Antenna	RM024125M30
RM024-S10-C-20	SMT	10 mW (CE)	u.FL Jack	RM02410C30
RM024-S10-M-20	SMT	10 mW (CE)	Chip Antenna	RM02410M30
RM024-P10-C-20	Pluggable	10 mW (CE)	u.FL Jack	RM02410C30
RM024-P10-M-20	Pluggable	10 mW (CE)	Chip Antenna	RM02410M30
RM024-P10-M-24	Pluggable	10 mW (CE)	Chip Antenna	RM02410M30

DEVELOPMENT KITS

Part #	Description
DVK-RM024-CE	RM024 Developer Kit, Pluggable, 3.3V TTL Serial, 10mW, Multiple Ant, CE Approved
DVK-RM024-FCC	RM024 Developer Kit, Pluggable, 3.3V TTL Serial, 125mW, Multiple Antenna

REVISION HISTORY

Version	Date	Notes	Approver
1.0	15 May 2015	Initial Release	Jonathan Kaye
2.0	2 Feb 2015	Update to new template	Jonathan Kaye
