

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

DATA SHEET

SKY67021-396LF: 0.6 to 1.2 GHz High-Linearity, Active-Bias Low-Noise Amplifier

Applications

- GSM, CDMA, WCDMA, TD-SCDMA cellular infrastructure
- Ultra low-noise systems
- Balanced, single-ended low-noise amplifier designs

Features

- Extended operating temperature range: -40 °C to +100 °C
- Low noise figure: 0.6 dB @ 0.9 GHz
- Excellent IIP3 performance: +22.5 dBm @ 0.9 GHz
- Gain: 17.5 dB @ 0.9 GHz
- Adjustable supply current
- Integrated enable circuitry
- Temperature and process-stable active bias
- Miniature DFN (8-pin, 2 x 2 mm) package (MSL1 @ 260 °C per JEDEC J-STD-020)

Skyworks Green™ products are compliant with all applicable legislation and are halogen-free. For additional information, refer to *Skyworks Definition of Green™*, document number SQ04-0074.

S2241

Figure 1. SKY67021-396LF Block Diagram

Description

The SKY67021-396LF is GaAs, pHEMT low-noise amplifier (LNA) with an active bias and high-linearity performance. The advanced GaAs pHEMT enhancement mode process provides good return loss, low noise, and high-linearity performance.

The internal active bias circuitry provides stable performance over temperature and process variation. The device offers the ability to externally adjust supply current and gain. Supply voltage is applied to the RFOUT/VDD pin through an RF choke inductor. Pin 3 (VBIAS) should be connected to RFOUT/VDD through an external resistor to control the supply current. The RFIN and RFOUT/VDD pins should be DC blocked to ensure proper operation.

The SKY67021-396LF operates in the frequency range of 0.6 to 1.2 GHz. For higher frequency operation, the pin-compatible SKY67022-396LF or SKY67023-396LF should be used.

The LNA is manufactured in a compact, 2 x 2 mm, 8-pin Dual Flat No-Lead (DFN) package. A functional block diagram is shown in Figure 1. The pin configuration and package are shown in Figure 2. Signal pin assignments and functional pin descriptions are provided in Table 1.

Table 1. SKY67021-396LF Signal Descriptions

Pin	Name	Description	Pin	Name	Description
1	N/C	No connection. May be connected to ground with no change in performance.	5	N/C	No connection. May be connected to ground with no change in performance.
2	RFIN	RF input. DC blocking capacitor required.	6	ENABLE	Enable pin. Active “low” (0 V) = amplifier on state.
3	VBIAS	Bias for 1 st stage amplifier. External resistor sets current consumption.	7	RFOUT/VDD	RF output. Apply VDD through RF choke inductor. DC blocking capacitor required.
4	N/C	No connection. May be connected to ground with no change in performance.	8	N/C	No connection. May be connected to ground with no change in performance.

Table 2. SKY67021-396LF Absolute Maximum Ratings¹

Parameter	Symbol	Minimum	Typical	Maximum	Units
Supply voltage	V _{DD}		5.0	5.5	V
Supply current	I _{DD}			150	mA
RF input power	P _{IN}			+20	dBm
Channel temperature	T _{CH}			+150	°C
Thermal resistance ²	Θ _{JC}		56.4		°C/W
Storage temperature	T _{STG}	-65	+25	+150	°C
Operating temperature	T _A	-55	+25	+100	°C
Electrostatic discharge:	ESD				
Charged Device Model (CDM), Class 4		1000			V
Human Body Model (HBM), Class 1A		250			V
Machine Model (MM), Class A		30			V

¹ Exposure to maximum rating conditions for extended periods may reduce device reliability. There is no damage to device with only one parameter set at the limit and all other parameters set at or below their nominal value. Exceeding any of the limits listed here may result in permanent damage to the device.

² Thermal resistance = 56.4 °C/W @ 5 V bias.

ESD HANDLING: *Although this device is designed to be as robust as possible, electrostatic discharge (ESD) can damage this device. This device must be protected at all times from ESD when handling or transporting. Static charges may easily produce potentials of several kilovolts on the human body or equipment, which can discharge without detection. Industry-standard ESD handling precautions should be used at all times.*

Electrical and Mechanical Specifications

The absolute maximum ratings of the SKY67021-396LF are provided in Table 2. Electrical specifications are provided in Table 3.

Typical performance characteristics of the SKY67021-396LF are illustrated in Figures 3 through 28.

Table 4 provides noise source pull information versus frequency.

Table 3. SKY67021-396LF Electrical Specifications^{1,2}**(V_{DD} = 5 V, I_{DD} = 100 mA, T_A = +25 °C, P_{IN} = -20 dBm, Characteristic Impedance [Z₀] = 50 Ω, Unless Otherwise Noted)**

Parameter	Symbol	Test Condition	Min	Typical	Max	Units
RF Specifications						
Noise figure ³	NF	@ 0.9 GHz		0.60	0.75	dB
Small signal gain	IS21I	@ 0.9 GHz	16.5	17.5	18.5	dB
Input return loss	IS11I	@ 0.9 GHz	11.0	12.5		dB
Output return loss	IS22I	@ 0.9 GHz	8.0	9.5		dB
Reverse isolation	IS12I	@ 0.9 GHz	27	29		dB
Third order input intercept point	IIP3	@ 0.9 GHz, Δf = 1 MHz, P _{IN} = -20 dBm/tone	+20.8	+22.5		dBm
Third order output intercept point	OIP3	@ 0.9 GHz, Δf = 1 MHz, P _{IN} = -20 dBm/tone	+38.3	+40.0		dBm
1 dB input compression point	IP1dB	@ 0.9 GHz	+3.4	+5.2		dBm
1 dB output compression point	OP1dB	@ 0.9 GHz	+20.0	+21.7		dBm
Stability ⁴	μ, μ1	Up to 18 GHz, -40 °C to +85 °C		> 1		-
DC Specifications						
Supply voltage	V _{DD}			5.0		V
Quiescent supply current	I _{DD}	Set with external resistor	85	100	115	mA
Amplifier enable off current (logic "high")	I _{EN}		700	900	1100	μA
Enable voltage:	V _{ENABLE}					
Gain mode				0	0.2	V
Power-down mode				1.5	5.5	V
Enable rise time	T _R	@ 0.9 GHz		250	500	ns
Enable fall time	T _F	@ 0.9 GHz		250	500	ns

¹ Performance is guaranteed only under the conditions listed in this Table.² Circuit topology optimized for balanced configuration with best IIP3 and NF performance.³ Loss from the input SMA connector and Evaluation Board up to component M1 has not been de-embedded from the NF measurement.⁴ Applies to typical application circuit and components shown in Figure 31.

Evaluation Board Description

The SKY67021-396LF Evaluation Board is used to test the performance of the SKY67021-396LF LNA. An assembly drawing for the Evaluation Board is shown in Figure 28. The layer detail is provided in Figure 29. An Evaluation Board schematic diagram is provided in Figure 30. Table 5 provides the Bill of Materials (BOM) list for Evaluation Board components.

Package Dimensions

The PCB layout footprint for the SKY67021-396LF is provided in Figure 31. Typical part markings are shown in Figure 32. Package dimensions are shown in Figure 33, and tape and reel dimensions are provided in Figure 34.

Package and Handling Information

Instructions on the shipping container label regarding exposure to moisture after the container seal is broken must be followed. Otherwise, problems related to moisture absorption may occur when the part is subjected to high temperature during solder assembly.

The SKY67021-396LF is rated to Moisture Sensitivity Level 1 (MSL1) at 260 °C. It can be used for lead or lead-free soldering. For additional information, refer to the Skyworks Application Note, *Solder Reflow Information*, document number 200164.

Care must be taken when attaching this product, whether it is done manually or in a production solder reflow environment. Production quantities of this product are shipped in a standard tape and reel format.
