

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Description

Switched mode power supply for rail mounting, with independent change-over of input voltages (AC 115/230 V), integral passive power factor compensation (PFC), high power reserve and optional parallel mode.

Features and Benefits

- The devices switches over automatically when connected to AC 115 V AC and 230 V
- Wide range inputs from AC 90 to 132 V at rated input voltage 115 V, and AC 180 to 264 V at rated input voltage 230 V
- Efficiency up to 89 %
- Integral passive power factor compensation
- Parallel mode for performance improvement (selectable by switch)

Typical applications

Process control, industrial switch- and controlgear, machine construction, telecommunication systems

Order numbering code

Type No.

SMP21 Single phase switch-mode power supply for rail mounting

Connector design

L pcb mounting (preferred type)

S plug-in type

Terminal design

20 screw terminals

Output voltage

DC24V DC 24 V

Output current

10 A

SMP21-L 20-DC24V-10A ordering example

Approvals and standards

Approval authority	Standards
UL	UL508, CSA C22.2 No. 107.1 (listed) UL 60950-1, CSAC22.2 No. 60950-1 (recognized)
TÜV Rheinland	EN 60950-1 / EN61558-1 / EN61558-2-16

EMC

EN 61000-6-3, EN 61000-6-2, EN 61204-3

SMP21-DC24V-10A
Version L20

Technical data ($T_U = 25^\circ\text{C}$, $U_B = \text{AC } 115 / 230 \text{ V}$, $I_O = 10\text{A}$)

Operating data

Input voltage ranges U_E AC 90...132 V / AC 180...264 V

Operating voltage range U_B AC 115 / 230 V

Effective output 240 W

Output voltage U_O 24 V SELV

Output current rating I_O 10 A

Efficiency 87 % min. / 89 % typically

General data

Switching frequency 40 kHz

Insulation voltage between input and output AC 3000 V, DC 4242 V
input and protective conductor AC 1500 V, DC 2121 V

output and protective conductor AC 500 V, DC 710 V

Insulation resistance 100 M Ω (DC 500 V) between input and output

Ambient temperature $-40^\circ\text{C} \dots +71^\circ\text{C}$

Derating factor (see curve) 2.5 % / $^\circ\text{C}$

Storage temperature $-40^\circ\text{C} \dots +85^\circ\text{C}$

Relative humidity 20...90 % RH

MTBF to Bellcore, ed. 6 481,000 hours at 40°C , GB

Max. altitude in operation to IEC 60068-2-13 5000 m above sea level

Cooling by convection

Mounting direction wall-mounted (see dimensions)

Pollution degree 2

Input circuit

Input rated voltage AC 115 V / AC 230 V

Input voltage ranges AC 90...132 V / DC 180...264 V

Input current 1.55 A typically at $U_B = \text{AC } 230 \text{ V}$
4.0 A typically at $U_B = \text{AC } 115 \text{ V}$

Max. input current 2.2 A at $U_B = \text{AC } 180 \text{ V}$
5.4 A at $U_B = \text{AC } 88 \text{ V}$

Supply frequency 47...63 Hz

Technical data ($T_U = 25^\circ\text{C}$, $U_B = \text{AC } 115 / 230 \text{ V}$, $I_0 = 10\text{A}$)

Inrush current at AC 115 V at AC 230 V	30 A max. 60 A max.
Power loss (at U_B 230 V, I_0 10 A)	35 W typically
Power factor Compensation (passive)	typically 0.75
Output circuit	
Rated voltage U_0	DC 24 V SELV
Current rating I_0	10 A
Output voltage accuracy	0...+1 %
Min. load	0 %
Supply regulation	$\pm 0.5\%$ at U_E min. ... U_E max.
Load regulation Single mode Parallel mode	$\pm 1\%$ $\pm 5\%$
Voltage adjustment range	DC 22.5...28.5 V at $0.8 \times I_0$
Continuous load	10 A at $U_0 = \text{DC } 24 \text{ V}$, 8.4 A at $U_0 = \text{DC } 28.5 \text{ V}$
Power boost factor	typically 130 % (120%...145% see output curve)
Short circuit behaviour	U/I trip curve
Exposure time	25 / 20 ms
ON delay at: resistive load capacitive load of 7,000 μF	1 s 1.5 s
Rise time at: resistive load capacitive load of 7,000 μF	150 ms 0.5 s
Release time	150 ms
Residual ripple	100 mV, spectrum = 20 MHz
Power back immunity	DC 35 V min.
Capacitive load	7,000 μF max.
Parallel mode	3 power supplies max. at $0.1 \times I_0$... $0.9 \times I_0$

Technical data ($T_U = 25^\circ\text{C}$, $U_B = \text{AC } 115 / 230 \text{ V}$, $I_0 = 10\text{A}$)

Control and protection circuit	
input protection	internal blade fuse T6.3A / AC 250 V
Recommended back-up fuse	1-pole MCB, e.g. E-T-A type 4230
Current rating	10 A / 16 A \rightarrow max. 20 A
Characteristic curve	B / C / D
Internal overvoltage protection	varistor
available power (output RDY)	Contact closed at: DC 17.6...19.4 V
Insulation voltage Contact load at	DC 500 V (to output) DC 60 V / 0.3 A
Overvoltage protection	30...33 V at $0.8 \times I_0$
Degree of protection	IP20
Physical data	
Dimensions (h x w x d) version L20 with screw terminals: Version S20 with removeable plug	124.5 x 83.5 x 123.6 mm (4,9 x 3,29 x 4,87 inches) 143.5 x 83.5 x 123.6 mm (5.65 x 3.29 x 4.87 inches)
Housing material:	metal
Mass	approx. 1380 g
Vibration (random vibration to IEC 60068-2-6)	mounted on symmetrical rail, 10 - 500 Hz, 2 g, on X, Y & Z axis, 60 minutes per axis
Shock (to IEC 60068-2-27,)	15 g (11 ms), 3 axes, 6 sides, 3 times per side

Dimensions

3

Mounting and Installation

Mounting	snap onto DIN rail (TS35/7.5 or TS35/15)
Ventilation / cooling	normal air convection, recommended distance on each side 25 mm
Mounting position	wall-mounted with the input terminals pointing downwards (see dimensions)

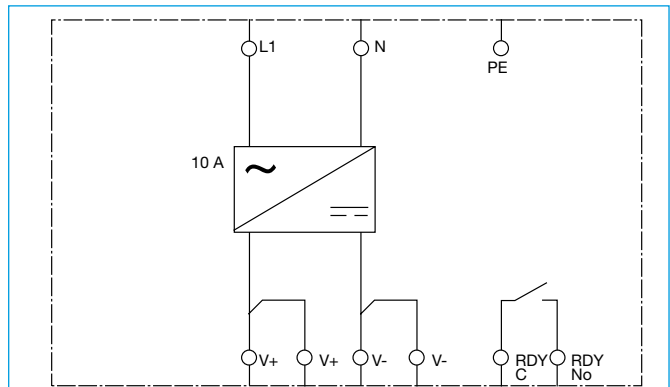

Version L20 with screw terminals:

Screw terminals	input terminal AWG24-10 (0.2 mm ² – 4 mm ²) flexible/rigid output terminal AWG24-10 (0.2 mm ² – 4 mm ²) flexible/rigid
Tightening torque	input connector 1 Nm max. Output terminal 0.6 Nm max.
Wire stripping length	8 mm

Version S20 with removeable plug

Screw terminals	input terminal AWG24-10 (0.2 mm ² – 4 mm ²) flexible/rigid output terminal AWG24-10 (0.2 mm ² – 4 mm ²) flexible/rigid
Tightening torque	input connector 0.5 Nm max. Output connector 0.8 Nm max.
Wire stripping length	4...5 mm

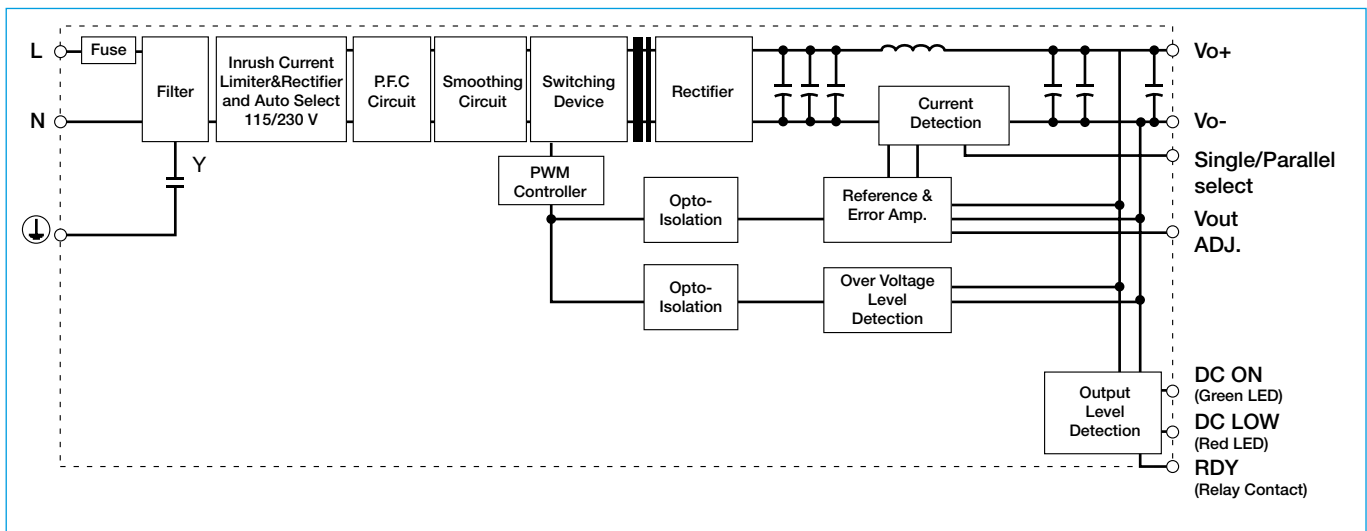

Pin assignment – Display - Controls

pin no.	name	Description
1	RDY	limit value DC ON, relay contact (make contact)
2		
3,4	V +	output voltage +
5,6	V -	output voltage -
7	PE	earth conductor
8	N	Input voltage, neutral conductor (not polarised with DC input voltage)
9	L	Input voltage, phase conductor (not polarised with DC input voltage)
	DC ON	visual status indication with LED
	DC LO	DC LOW output voltage LED indication
	Vout Adj	potentiometer for adjustment of output voltage U_o
	S/P	change-over switch single / parallel mode

Application example with protection by 4230-T and REF16-S

Notes for installation

- The power distribution system must only be installed by qualified personnel.
- Only after expert installation must the device be supplied with power.
- The user has to ensure that the cable cross section complies with the applicable current rating.
- The national standards (e.g. for Germany DIN VDE 0100) have to be observed for installation and selection of feed and return cables.
- Recommended circuit breaker for the primary input cable protection: E-T-A type 4230 IN max. 20 A
- Recommended selective overcurrent protection for the secondary output protection: E-T-A types ESS., ESX., and REF...
- In addition special precautions must be taken in the system or machine (e.g. use of a safety PLC) which reliably prevent an automatic re-start of parts of the system (cf. Machinery Directive 2006/42/EU and EN 60204-1, Safety of Machinery). In the event of a failure (short circuit/overload) the load circuit will be disconnected by the circuit breaker/protector or the switched mode power supply.

3

All dimensions without tolerances are for reference only. E-T-A reserves the right change specifications at any time in the interest of improved design, performance and cost effectiveness, the right to make changes in these specifications without notice is reserved. Product markings may not be exactly as the ordering codes. Errors and omissions excepted.
