## : ©hipsmall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation, and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

## Switching Power Supply Type SPD 300W DIN rail mounting

## Product Description

This SPD is the most compact 300W power supply on the market. Relay output for "power ready" parallel function and PFC are included. Performances are unique with high
efficiencies and the possibility of being used up to $70^{\circ} \mathrm{C}$ with a little derating. Thanks to the Class I Div 2 design is suitable for installation in potentially explosive environments.

- Installation on DIN Rail 7.5 or 15 mm
- Short circuit protection
- Passive PFC
- Power ready relay output on 24VDC
- LED indicator for DC power ON
- LED indicator for DC low
- Parallel function by switch
- Very compact dimensions
- UL, cUL listed and TUV/CE approved
- $\left.\varepsilon_{x}\right\rangle$ Class I division 2 certification
- Selv design
