Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation, and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

# Switching Power Supply Type PSS 480W DIN rail mounting 

## Product Description

The Switching power supplies SPD series are specially designed to be used in all automation
application where the installation is on a DIN rail and compact dimensions and performance are a must.

## Approvals

- Universal AC single phase input full range
- Can also be used as bi-phase 400VAC
- Installation on DIN rail 7.5 or 15 mm
- PFC as standard
- High efficiency up to $90 \%$
- Power ready output
- Parallel connection feature
- Compact dimensions
- CE, TÜV, CCC approved and cULus listed
- Class I Div 2 Groups A, B, C, D approved

Optional Features
