Overview

Introducing the ClearFog family, a flexible IoT gateway platform which harnesses the full potential and robust processing power of the ARMADA SoC – providing a modular powerful board with endless possibilities. With the ARMADA processor at its core, the ClearFog offers both optimal modulation and fast processing speeds, cutting development costs, TTM and simplifying production process.

ClearFog Pro Highlighted Features:

- Based on Marvell's ARMADA A388 SoC
- Optimized for networking, routing and storage applications
- Optional industrial metal enclosure, perfect for OEMs
- Feature rich
- Extensive SW support
