

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

STEVAL-ISA023V1

Flyback AC-DC converter evaluation board based on the VIPer53-E
with 24 W positive output

Data Brief

Features

- Input voltage, V_{in} : from 90 to 265 V_{rms}
- Positive output voltage: 3.3 V, 5 V, 12 V
- Standby consumption: <1 W
- Total output power: 24 W
- EMI requirements: EN55022 Class B
- Safety: EN 60950

Description

This evaluation board represents a solution for a 25 W switch mode (SMPS) power supply dedicated to industrial or white goods applications. The board accepts a wide range of input voltages (90 to 265 V_{rms}) and delivers 3 positive output voltages. The switch mode power supply (SMPS) is based on the VIPer53-E. The VIPer53-E combines an enhanced current-mode PWM controller with a high-voltage MDmesh™ Power MOSFET in the same package. The main characteristics of the evaluation board are its high efficiency and low standby consumption. These, combined with the minimal component count and global low-cost approach, make this an ideal solution for powering industrial or consumer equipment, while also meeting worldwide consumption requirements.
