Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

#### Features

Order code	V <sub>DS</sub>	R <sub>DS(on)max</sub> .	I <sub>D</sub>
STL18N65M5	710 V	0.240 Ω	15 A <sup>(1)</sup>

1. The value is rated according to  $\mathsf{R}_{thj\text{-}case}$  and limited by package.

- Outstanding R<sub>DS(on)</sub>\*area
- Extremely large avalanche performance
- Gate charge minimized
- Very low intrinsic capacitance
- 100% avalanche tested

### **Applications**

Switching applications

### Description

This device is an N-channel MDmesh<sup>™</sup> V Power MOSFET based on an innovative proprietary vertical process technology, which is combined with STMicroelectronics' well-known PowerMESH<sup>™</sup> horizontal layout structure. The resulting product has extremely low onresistance, which is unmatched among siliconbased Power MOSFETs, making it especially suitable for applications which require superior power density and outstanding efficiency.
