

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

High voltage power Schottky rectifier

Features

- high junction temperature capability
- good trade-off between leakage
- current and forward voltage drop
- low leakage current
- insulated package: TO-220FPAB
 - insulating voltage = 2000 V DC
 - capacitance = 45 pF
- avalanche capability specified

Description

Dual center tap Schottky rectifier designed for high frequency switched mode power supplies.

2 Package Information

- Epoxy meets UL94, V0
- Cooling method: (C) conduction
- Recommended torque values (TO-220FPAB, TO-220AB: 0.4 to 0.6 N·m
- Torque values (TO-247): 0.55 N·m recommended, 1.0 N·m maximum

In order to meet environmental requirements, ST offers these devices in different grades of ECOPACK® packages, depending on their level of environmental compliance. ECOPACK® specifications, grade definitions and product status are available at: www.st.com.

The technical drawing illustrates the physical dimensions of a TO-247 package. It includes a top view showing the overall height (H), lead spacing (L), and lead length (L1-L5). A side view shows the thickness (D), lead pitch (F1-F4), and lead height (L2-L5). Other dimensions include lead width (A), lead angle (V), lead taper (V2), and lead gap (G). The drawing also indicates the lead diameter (Dia.) and the lead tip angle (5° or 60°).
