

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Dispensers

ScotchCode™ STD-TAG Dispenser

The patented ScotchCode STD-TAG Dispenser simplifies the process of permanently or temporarily marking wires with ScotchCode wire marker tags. The dispenser allows easy printing of the tag with a permanent marking pen. A built-in blade quickly and neatly cuts the marker. The dispenser also provides a handy platform on which to write, something that's not always readily available in the field.

The STD-TAG dispenser is refillable and designed to hold two cartridges of STD wire marking tags (two different sizes) as well as a ScotchCode SMP Permanent Marking Pen. The tool is rugged and compact. The tags are available in two sizes, STD-101 and STD-102. Applications for both types of tags include identifying wire, cable conduit and tubing as well as bundling wire, cable or any other objects with a circumference which can be handled with a miniature or standard width cable tie.

SMP Marker Pen	09963	—	—	—	—	—	—	50

* This case quantity is 10 sets of: 1 STD-TAG, 1 STD-101, 1 STD-102, and 1 SMP pen.

ScotchCode STL-100 Embossing Tool

Illegible, hand-written wire markers are now a thing of the past. The ScotchCode STL-100 embossing tool allows users to quickly produce slip-on wire marker tags that will always be easy to read. This tool is both compact and durable; perfect for field use. The ScotchCode STL-101 and STL-102 tags are unique, pre-punched, continuous-feed wire marker tags specially designed for the embossing tool. These tags accommodate practically all labeling needs.

Both the tags and the STL-103 adhesive label tape are manufactured from a patented electrical grade material that is heat resistant to 221°F (105°C) and resistant to industrial-grade cleaning solvents.

Specifications and Ordering Information for ScotchCode™ STL-100 Embossing Tool

Product Number	UPC (054007-)	Labels Per Roll	Character Capacity	Marker Size		Recommended Wire Size	Case Qty.

Note: The standard embossing tapes come from Commercial and Office Supply 1-800-258-9842.

* This case quantity is 6 sets of: 1 STL-100, 1 STL-101, 1 STL-102, and 1 STL-103.

ScotchCode Write-On Dispensers

These three self-laminating write-on marker dispensers are handy for identifying wire and cable as well as household, automotive, plumbing and sporting equipment.

They are easy to use, refillable and come with an SMP permanent marking pen. The dispensers' design provides

convenience and protects the die-cut adhesive markers.

45

Applications:

- **Home use:** VCRs, TVs, cable, stereo components, phones, computers, luggage, satellite installation
- **Do-It-Yourself Home Improvements:** home security, sprinkler systems, sound systems, exterior lighting design
- **Automotive:** plugs, hoses, spark plugs, stereos, car alarms
- **Plumbing:** pipes, hoses, tubes, parts, vents
- **Sporting Equipment:** golf clubs, camping equipment, bags, bats, fishing rods, rackets, bicycles
- **Equipment Identification:** hand and power tools

Features — Benefits

3M ScotchCode Write-On Dispensers

Ergonomically designed	Markers are easy to use with dispenser
Pens and refill rolls sold separately	Reusable
Die-cut markers now in small, medium and large	Provides variety of uses
Resists dirt, oil, heat and moisture	Markers stay clean & dry
Transparent overwrap with self-laminating pressure-sensitive adhesive	Protects printing

ScotchCode™ STD Tape Dispenser

46

✓ Features — Benefits

ScotchCode STD Wire Marker Tape Dispenser

Compact Design	Easy to handle
Hangs from a tool belt	Convenient
Provides contamination protection around the wire markers	Markers stay clean & dry
Can be custom filled to meet specific project requirements	No waste
Dispenses only the desired length	Prevents waste
Holds ten rolls of SDR wire marking tape	Compact

The ScotchCode STD Tape Dispenser is a compact, carry-along dispenser with ten refillable compartments which hold eight-foot rolls of non-smear polyester tape. Used for marking binder groups, wire or cable, the tapes' high tack, acrylic adhesive resists solvents, oil and water and adheres firmly to insulation surfaces. An end loop hooks the dispenser easily to a tool pouch or belt. Dispensers can be ordered empty or filled with 10 rolls of either pre-printed numbers 0-9 or NEMA colors.

STD-C	12175	Dispenser filled with 10 rolls of colored tape (one each of black, blue, brown, green, gray, orange, red, violet, white and yellow)	25
STD-CX	49517	Dispenser filled with 10 rolls of colored tape (one each of black, blue, brown, green, gray, orange, red, violet, white and yellow)	10

ScotchCode SDR Dispenser Refill Rolls

This aggressive adhesive system, combined with the flexible polyester film backing, provides a thin, conformable tape that is durable and will hold up in most industrial electrical applications. The smooth surface of this tape allows dirt and grime to be easily wiped off, providing text legibility even after extended exposure to a build-up of contamination. ScotchCode SDR Wire Marking Tape is available in ten NEMA colors, individual numbers and consecutive numbers.

The SDR tape can be used for the following applications involving operating temperatures between -40°F to 250°F (-40°C and 121°C):

- Marking all types of wire and cable including power, control, fiber optic, electronic, telecommunications, and instrumentation

- Phase identification on large or small gauge wire or cable
- Identification of terminal blocks, terminal strips, and wire in panel boards or a piece of switchgear
- Automotive applications on tubing, hoses and replacement parts
