## : ©hipsmall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation, and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

## Single Windaw Single Made Wideband FIBER CロபPLER (980, 1310, 5, c, L, AND C+L band)

## Product Description

The Oplink fused single window wideband fiber $1 \times 2(2 \times 2)$ couplers provide accurate optical signal coupling and splitting over wide bandwidth with high performance and high reliability. These couplers have excellent uniformity, low excess loss and very low polarization sensitivity and are available with various tap ratios, wavelength ranges, fiber types, and connector options. All devices are shown to be able to handle high optical power up to 4 W and are tested according to industry standard procedures. Reliability is guaranteed through stringent tests to fully meet Telcordia GR-I22I requirements.

Performance Specification

| SWFC Series | 980 nm | $\begin{gathered} 1310 \\ \mathrm{~nm} \end{gathered}$ | $\begin{gathered} \mathrm{S} \\ \text { Band } \end{gathered}$ | c Band | $\begin{gathered} \mathrm{L} \\ \text { Band } \end{gathered}$ | $\begin{aligned} & \text { C+L } \\ & \text { Band } \end{aligned}$ | Unit |

1. Insertion loss over operating wavelength range at $\sim 23^{\circ} \mathrm{C}$ (excluding PDL and TDL).
2. Insertion loss change over the specified wavelength range.
3. Insertion loss change over the all input polarization states.

## Ordering Information

Oplink can provide a remarkable range of customized optical solutions. For detail, please contact Oplink's OEM design team or account manager for your requirements and ordering information (5I0) 933-7200.

Notes :

* For HI1060, HI980 and OFS BF05635-02 fiber type, the Connector Option is None.
** The tolerance of fiber length is +/-0.1m. 1 meter is standard. The lead time for special fiber length will be longer.
