Multi-Function Cable Tester with Wire Tracker and Tone Generator

MODEL NUMBER: T012-001-K

Multi-function kit for tracking cable, locating a short or breakage in a non-powered cable, and mapping RJ45 wire. Essential for cable installers or anyone in the telecom or LAN environments.

Description

The T012-001-K Multi-Function Cable Tester is an essential tool for cable installers or anyone working in telecom or LAN environments. It allows you to track cable, find a short or breakage in non-powered wires, and perform wire mapping on RJ45 cables, detecting shorts and open wires. Powered by included 9-volt batteries in the main tester and remote probe unit, the T012-001-K can find an RJ11, RJ45 or BNC cable nestled within a group of cables. The probe unit's LED flashlight is handy for working in dark areas. Included headphones help you work in noisy environments. An adjustable volume button lets you fine-tune the tone generator.

Features

Essential Tool for Cable Installers or Telecom/LAN Personnel

- Find RJ11, RJ45 or BNC cable among group of cables
- Find short or breakage in non-powered wires
- Perform wire mapping on RJ45 cables, detecting shorts and open wires

Designed to Make Your Work Easier

- LED flashlight for poking around dark areas
- Headphones for working in noisy environments
- Volume control for fine-tuning the tone generator
- Powered by included 9V batteries
- Stores away in convenient carrying case

Specifications

Highlights
