**IMPORTANT:**

The FM-2030 can only be attached to the FM-203 D port, or FM-206 CH2 or CH3 ports. If you attach the iron to any other port, a grip error or connector error (C-E) will occur.

**Comment:**

The Hakko FM-2030 Heavy Duty Soldering Iron is a new soldering iron handpiece that is compatible with the Hakko FM-203\* Soldering Station and Hakko FM-206 High Performance 3-port Rework System.

The FM-2030 provides a higher mass tip with double the power of conventional T15 tips making this iron the ideal solution where soldering is difficult due to heavy ground planes or high heat sink applications.

The FM-2030 uses T22 Series Tips.
