

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Prototyping Module

Quick Start Guide

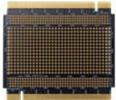

How to build your Tower

- Press the card edge connector of each Tower module into a slot on the elevator—take care to match all the primary card edges and plug them into a functional elevator. A module may be placed into any slot on the elevator.
- 2. Press another **elevator** board onto the **secondary** card edges.

TWR-PROTO features

- Access to all signals on primary and secondary elevator connectors for prototyping and signal probing
- Prototyping area for adding custom circuitry to Tower System
- Multiple 5V, 3.3V and GND connections
