imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

High Power, Drum Inductors

UNI-PAC™ UP2UC Series

COILTRONICS[®]

Description

- Halogen Free, RoHS compliant
- 125°C maximum total temperature operation
- 9.5 x 12.7 x 5.21mm drum core
- Ferrite core material
- Inductance range from 1.0μ H to 1000μ H
- Current range from 0.30 to 9.0 amps

Applications

- Buck or boost inductor
- PDAs
- Desktop computer
- DVD Players
- Portable power devices
- Output filter chokes
- Test equipment instrumentation

Environmental Data

- Storage temperature range: -40°C to +125°C
- Operating temperature range: -40°C to +125°C (ambient plus self-temperature rise)
- Solder reflow temperature: J-STD-020D compliant

Packaging

• Supplied in tape and reel packaging, 600 parts per reel, 13" diameter reel

1 Open Circuit Inductance (OCL) Test Parameters: 100kHz, 0.25V_{rms}, 0.0Adc

2 I_{rms}: DC current for an approximate ∆T rise of 40°C without core loss. Derating is necessary for AC currents. PCB layout, trace thickness and width, air-flow and proximity of other heat generating components will affect the temperature rise. It is recommended the part temperature not exceed 125°C under worst case operating conditions verified in the end application.

3 Isat: Peak current for approximately 7.5% rolloff at 25°C.

4 K-factor: Used to determine B_{p-p} for core loss (see graph). B_{p-p} = K * L * $\Delta I_{,}$ B_{p-p}: (Gauss), K: (K-factor from table), L: (inductance in μ H), ΔI (peak-to-peak ripple current in amps).

6 Part Number Definition: UP2CU-xxx-R

• UP2CU = Product code and size

 xxx= Inductance value in μH, R = decimal point. If no R is present, then third digit equals the number of zeros.

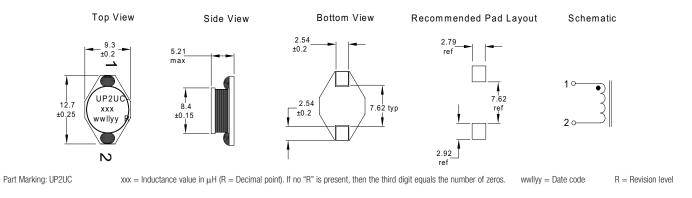

• "-R" suffix = RoHS compliant

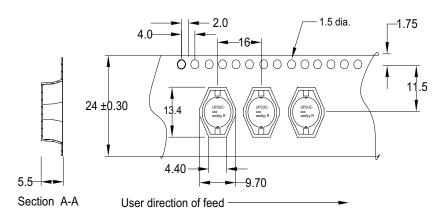

Dimensions - mm

Tolerances are ± 0.254 mm unless otherwise specified.

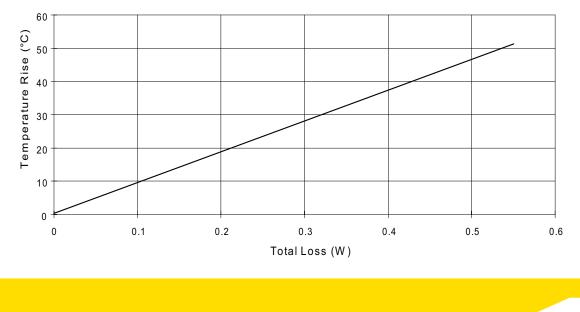

Packaging Information - mm

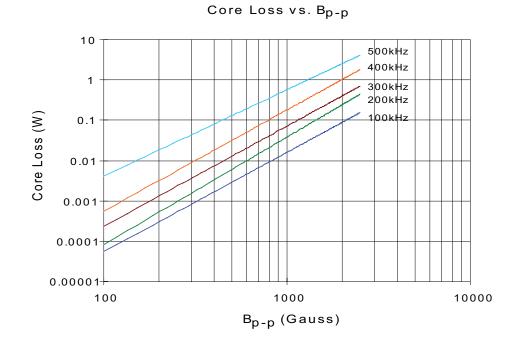

Supplied in tape-and-reel packaging, 600 parts per reel, 13" diameter reel.
