Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

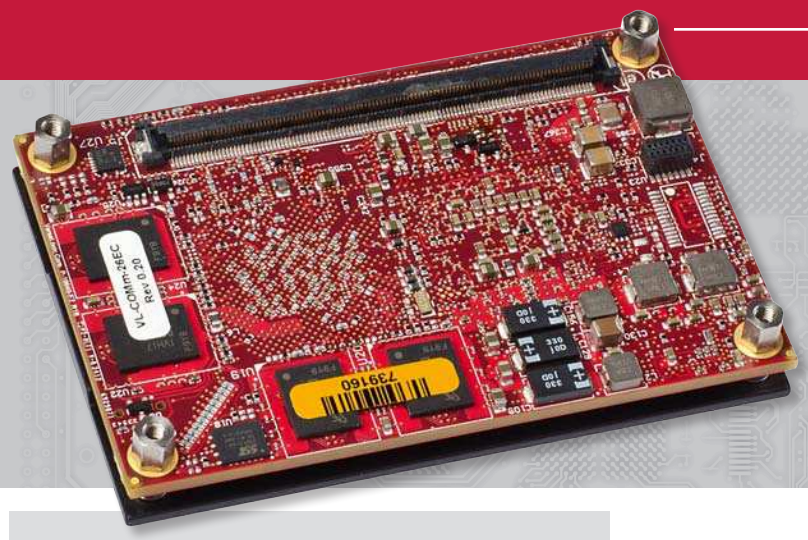
VERSALOGIC CORPORATION

VL-COMm-26

COM Express Mini CPU Module



- Extremely small COM Express™ mini form factor
- Intel® Atom™ E6x0T processor
- Industrial temp. (-40° to +85°C)
- Class 3 manufacturing (optional)
- Wide input voltage (8V–17V)
- On-board Trusted Platform Module (optional)

Highlights

COM Express Mini Form Factor
Extremely small 55 mm x 84 mm format with Type 10 pin-out.

Intel Atom E6x0T Processor
1.6 GHz performance. Low power consumption.

Industrial Temperature Operation
-40° to +85°C operation for harsh environments.

Class 3 Manufacturing (optional)
For applications where extreme reliability is essential.

MIL-STD-202G
Qualified for high shock/vibration environments.

Trusted Platform Module (optional)
On-board security option defends against attacks from unauthorized hardware and software.

Fanless Operation
No moving parts required for CPU cooling.

Wide Input Voltage Range
Accepts 8 to 17 volts (12V typ.).

High-performance Video
Graphics core supports MPEG-4/H.264 and MPEG-2 encoding and decoding.

Network
Gigabit Ethernet (GbE) with remote boot support.

RAM
Up to 2 GB soldered-on DDR2 RAM.

I/O Interfaces
SATA, PCIe, USB host/client, serial, HD audio, LPC, SMBus, and CAN.

Flash Memory
On-board microSD™ socket and SDIO interface for plug-in flash storage.

RoHS

Overview

The VL-COMm-26 is an extremely small and rugged Computer on Module (COM) based on the industry-standard COM Express mini form factor. Roughly the size of a credit card, the VL-COMm-26 has been engineered to meet the military and medical industries' requirements for smaller, lighter, and lower power embedded systems while adhering to stringent regulatory standards. The VL-COMm-26 is manufactured to IPC-A-610 Class 2 standards. For extremely-high-reliability applications, IPC-A-610 Class 3 (modified) versions are available. This embedded computer module, equipped with an Intel Atom E6x0T processor, is designed to withstand extreme temperature, impact, and vibration.

Details

Driven by an Intel Atom E6x0T processor, the VL-COMm-26 provides significant performance and lower power consumption (7W–8W typical) in a very compact package. The VL-COMm-26 provides compatibility with a broad range of standard x86 application development tools for reduced development time.

The VL-COMm-26 utilizes advanced Intel technologies to maximize performance. Intel Hyper-Threading Technology (Intel HT Technology) provides two processing threads per physical core which allows applications to work in parallel and complete tasks sooner. Intel Virtualization Technology allows one VL-COMm-26 system to function as multiple "virtual" platforms. This enables computing activities to be isolated into separate partitions for increased application flexibility and reliability. Enhanced Intel SpeedStep® Technology enables high performance while meeting the power-conservation needs of embedded systems by switching voltage and frequency levels in response to processor load.

The integrated Intel GMA600 graphics core provides hardware-accelerated MPEG-4/H.264 and MPEG-2 video encoding and decoding. A standard LVDS output supports flat panel displays. An SDVO output supports a variety of signaling interfaces including VGA and DVI.

The standard Type 10 pin-out provides industry-standard system interfaces including Gigabit Ethernet with network boot capability, seven USB ports, three x1 PCIe lanes, two serial interfaces, Intel High-Definition Audio (HDA), LPC, and SMBus to the carrier board. An auxiliary board-to-board connector provides two additional serial interfaces and a CAN interface. Dual SATA 3 Gb/s interfaces support high-capacity storage. A microSD socket provides flexible solid-state drive (SSD) options.

For enhanced security, the VL-COMm-26 supports Execute Disable Bit functionality. This hardware-based security feature reduces exposure to viruses and malicious-code attacks by preventing harmful software from executing and propagating on the network. An optional on-board Trusted Platform Module (TPM) is available for applications that require additional hardware-level security functions.

VL-COMm-26

COM Express Mini CPU Module

Designed and tested for industrial temperature (-40º to +85ºC) operation, the rugged VL-COMm-26 also meets MIL-STD-202G specifications for shock and vibration. Soldered-on RAM provides additional ruggedization for use in extremely harsh environments. Heatsink or heat plate versions provide fanless heat dissipation. Thermal monitoring technologies protect the system from thermal failure by reducing power consumption when required to remain within normal thermal operating limits.

A wide input voltage range of 8 to 17 volts (12V typ.) simplifies system power supply requirements. It is fully compatible with 12V automotive-type power systems.

The VL-COMm-26 is compatible with a variety of popular x86 operating systems including Windows, Windows Embedded, Linux, and VxWorks.

Product customization is available, even in low quantities. Options include a Trusted Platform Module, conformal coating, BGA underfill, IPC Class 3 (modified) construction, BIOS/splash screen configuration, application-specific testing, BOM revision locks, special labeling, etc.

As a mate to the VL-COMm-26, VersaLogic can design and manufacture carrier boards that meet your exact requirements for an embedded system. Please contact a VersaLogic Sales Engineer for more information.

Ordering Information

Model	Processor	Speed	RAM	Cooling
VL-COMm-26EAP*	Atom E620T	0.6 GHz	512 MB	Heat plate
VL-COMm-26EBP	Atom E640T	1.0 GHz	1 GB	Heat plate
VL-COMm-26ECP	Atom E680T	1.6 GHz	1 GB	Heat plate
VL-COMm-26EDP*	Atom E680T	1.6 GHz	2 GB	Heat plate
VL-COMm-26EAK*	Atom E620T	0.6 GHz	512 MB	Heatsink
VL-COMm-26EBK	Atom E640T	1.0 GHz	1 GB	Heatsink
VL-COMm-26ECK	Atom E680T	1.6 GHz	1 GB	Heatsink
VL-COMm-26EDK*	Atom E680T	1.6 GHz	2 GB	Heatsink

Accessories

Part Number	Description
Carrier Boards	
VL-BBm-10E-xxxx	Carrier board, 5 mm board spacing, AUX connector, Class 2
Solid-State Storage (Flash Memory)	
VL-F41-xxxx	microSD card (SDIO), SLC, industrial temp.
Hardware	
VL-HDW-405	Secondary mounting plate. Simplifies installation in many situations. Attaches to heat plate models.
Miscellaneous	
VL-HDW-401	Thermal compound paste (1.75g)

Specifications

General	Form Factor	COM Express mini (Type 10): 55 mm x 84 mm (2.17" x 3.31")
	Processor	Intel Atom E6x0T platform. 512K 8-way L2 cache. Intel Hyper-Threading Technology (HT), Virtualization Technology (VT), Enhanced SpeedStep Technology, Thermal Monitoring Technologies, and Execute Disable Bit.
	Chipset	Intel EG20T Platform Controller Hub (PCH)
	Battery	Connection for 3.0V RTC backup battery
	Power Requirements (@ +12V) §	Model / Idle / Typical / Max. / S3 VL-COMm-26EAx: 7.2W / 7.4W / 7.6W / 3.0W VL-COMm-26EBx: 7.3W / 8.0W / 8.7W / 3.0W VL-COMm-26ECx: 7.3W / 8.4W / 9.5W / 3.0W VL-COMm-26EDx: 7.3W / 8.4W / 9.5W / 3.0W
	Input Voltage	8V–17V (nominal 12V operation)
	System Reset & Hardware Monitors	All voltage rails monitored. Watchdog timer with programmable timeout (1 µS to 10 min.).
	Manufacturing Standards	Standard: IPC-A-610 Class 2 Custom: IPC-A-610 Class 3 (modified)
	Regulatory Compliance	RoHS compliant
Environmental	Operating Temperature	-40° to +85°C. Derate -1.1°C per 305m (1,000 ft.) above 2,300m (7,500 ft.). ¤
	Storage Temperature	-40° to +85°C
	Cooling	Fanless. Heatsink or bolt-down heat plate.
	Airflow Requirements	Heat plate models: -40° to +85°C (*Heat plate must be kept below 90°C*) — Zero airflow Heatsink models: -40° to +60°C — Zero airflow; +60° to +85°C — 300 LFM
	Altitude ¤	Operating: To 15,000 ft. (4,570m) Storage: To 40,000 ft. (12,000m)
	Thermal Shock	5°C/min. over operating temperature
	Humidity	Less than 95%, noncondensing
	Vibration, Sinusoidal Sweep ¥	MIL-STD-202G, Method 204, Modified Condition A: 2g constant acceleration from 5 to 500 Hz, 20 min. per axis
	Vibration, Random ¥	MIL-STD-202G, Method 214A, Condition A: 5.35g rms, 5 min. per axis
	Mechanical Shock ¥	MIL-STD-202G, Method 213B, Condition G: 20g half-sine, 11 ms duration per axis
Security	TPM (optional)	Support for Intel Trusted Platform Module 1.2 devices
Memory	System RAM	Up to 2 GB soldered-on DDR2 SDRAM. 800 MT/s.
Video	General	Intel GMA600 high-performance graphics core. Advanced 2D/3D graphics. Hardware-accelerated video encode and decode.
	VRAM	Up to 256 MB + 384 MB shared DRAM
	Desktop Display Interface π	SDVO supports a variety of signaling interfaces including VGA and DVI. Up to 1920 x 1080 (50 Hz) or 1280 x 1024 (85 Hz).
	OEM Flat Panel Interface π	Single-channel LVDS interface. 18/24-bit. Up to 1280 x 768 (60 Hz).
Mass Storage	Rotating Drives / Flash / Solid-State Drives ‡	Two SATA 3 Gb/s ports π microSD socket supports up to 32 GB. SDIO interface supports SD, SDIO, and MMC.
Network Interface	Ethernet † π	One autodetect 10BaseT/100BaseTX/1000BaseT port. Network boot option.
Type 10 I/O Interfaces	USB ‡	Six host and one client USB 2.0 ports
	COM 3 / 4 #	CMOS levels. 16C550 compatible. 1 Mbps max.
	Audio	Intel High-Definition Audio (HDA) CODEC
	PCIe	Three x1 PCIe (Gen 1) lanes
	SMBus	1 MHz
	LPC	33 MHz
	Control	Wake, reset, and power
Auxiliary I/O Interfaces	CAN †	2-wire CAN port
	COM 1 #	CMOS levels. 16C550 compatible. 1 Mbps max. Handshake lines.
	COM 2 #	CMOS levels. 16C550 compatible. 1 Mbps max.
Software	BIOS	AMI Aptio UEFI BIOS with OEM enhancements. Field reprogrammable.
	Sleep Mode	ACPI 3.0. Support for S3 suspend state.
	Operating Systems	Compatible with most x86 operating systems including Windows, Windows Embedded, Linux, and VxWorks

§ Represents operation at +25°C and +12V supply running Windows XP with LVDS display, SATA, GbE, COM, and USB keyboard/mouse. Typical power computed as the mean value of Idle and Maximum power specifications. Maximum power measured with 95% CPU utilization.

† IEEE 1588 Precision Time Protocol (PTP) compatible

‡ Bootable storage device

¤ Extended altitude specifications available upon request

π Available via Type 10 I/O connector

 # COM1 and COM2 ports are available only when the auxiliary board-to-board connector is used

¥ MIL-STD-202G shock and vibe levels are used to illustrate the extreme ruggedness of this product in general. Testing to higher levels and/or different types of shock or vibration methods can be accommodated per the specific requirements of the application. Contact a VersaLogic Sales Engineer for further information.
