

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

WC Series Heatsinks

For TO-220, TO-247, and TO-264 devices

The unique design (patent pending) of the WC Series heat sinks combines a tin plated, solderable, integral cam clip with an compressed ceramic heat sink body for an all-in-one solution to through-hole mounting of TO-220, TO-247, and TO-264 packages. These self-aligning heat sinks feature solderable feet and an integrated clip with 13.2 (lbf) of force on the center of the device to enhance thermal performance.

FEATURES

- Reduced assembly cost: cam clip and auto-align feature makes fasteners and fixtures obsolete
- Maximum repeatability: clamping force of the cam clip is not degraded by repeated loading and unloading
- Great electrical characteristics: ceramic material provides great electrical isolation while offering thermal performance similar to aluminum heatsinks
- Maximum resistance to shock and vibration: light weight, resilient cam clip locks the component in place and is highly resistant to shock and vibration

SERIES SPECIFICATIONS

Heatsink Part Number	For Package Type	Ohmite Resistor Series	Surface Area (in ²)	Weight	Thermal Resistance*
WC-T2X-38E	TO-220, TO-247, TO-264	TBH25, TCH35, TEH100	17.3	1.48 oz/42g	12°C/W

* at 12 watts

CHARACTERISTICS

Heat Sink	95% Al ₂ O ₃
Spring Clip	Music wire, per ASTM A228
Interface thermal resistance	for improvement, use thermal joint compound or 0.005 Grafoil (TGon 800 by Laird)
Mounting	Vertical thru-hole mount
Clip Force	13.2 lbf.
Dielectric withstanding voltage	4KV (from clip to device)

Heat Dissipation

Heat Dissipation: Aluminum vs. Ceramic
