imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Delay Line

DESCRIPTION

The XDL20-11-180S is a surface mount delay line that uses a slow wave coupling structure that maximizes the amount of delay per unit area over other distributed delay structures. The XDL20-11-180S can be used in amplifier linearization applications from 869–894 MHz. The XDL20-11-180S is ideal for use in the main loop of feed forward and in pre-distortion amplifiers. The Xinger® delay lines are a low cost, high quality alternative to the traditional coaxial and filter solutions presently available. Parts have been subjected to rigorous qualification testing and units are 100% tested. Produced with 6 of 6 RoHS compliant tin immersion.

ELECTRICAL SPECIFICATIONS

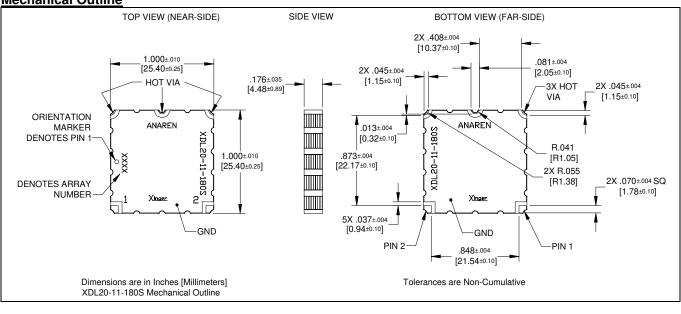

Features:

- Production Friendly
- Consistent Delay
- Stable over Temperature
- Surface Mountable
- Available in Tape & Reel
- Non-Lead Solder Paste
 Compatible
- 100% Tested
- Lead Free

Frequency (MHz.)	869-894 AMPS Band
Mean Delay (nS)	11.25±0.20
Deviation from Linear Phase (Degrees Max)	± 0.50
Amplitude Flatness (dB p-p)	0.15
Return Loss (dB min)	20
Insertion Loss (dB/nS)	0.40
Insertion Phase (Degrees)	-10±30.0
Power Handling (Watts)	1
⊌JC (°C/watts)	4.5
Operating Temp. (°C)	-55 to +85
posification based on performance of unit preperty installed on microstrip printed circuit baseds with EQ.	

Specification based on performance of unit properly installed on microstrip printed circuit boards with 50 Ω nominal impedance. Specifications subject to change without notice.

Mechanical Outline

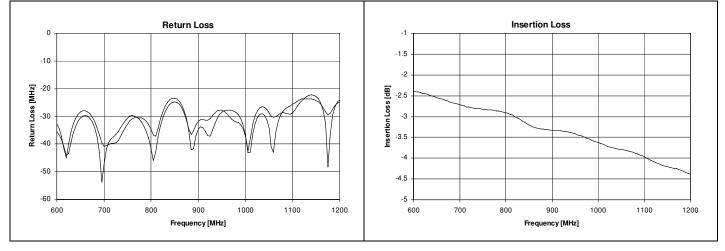

Available on Tape and Reel For Pick and Place Manufacturing. USA/Canada: (315) 432-8909 Toll Free: (800) 544-2414 Europe: +44 2392-232392

TYPICAL PERFORMANCE: 600 MHz. TO 1200 MHz.

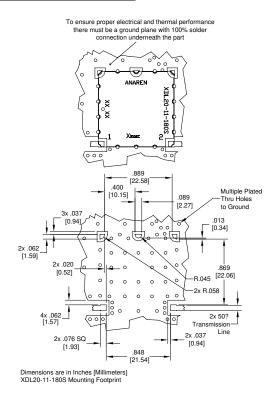

AVERAGE DELAY:

The average delay is defined as the group delay of the input signal through the delay line. The lot-to-lot variation is reflected in the plus/minus tolerance given in specifications.

Refer to Anaren Application Note AAN-232 for further information on Xinger delay lines.

MOUNTING GUIDELINES:

In order for Xinger surface mount delay lines to work optimally, there must be 50Ω transmission lines leading to and from all of the RF ports. Also, there must be a very good ground plane under the part with a number of plated thru holes to ensure proper electrical performance. If any of these conditions are not satisfied, insertion loss, average delay and VSWR may not meet published specifications.

When a surface mount delay line is mounted to a printed circuit board (PCB), the primary concerns are; insuring the RF pads of the device are in contact with the circuit trace of the PCB and the ground plane of neither the component nor the PCB are in contact with the RF signal. An example of how the PCB footprint could look is shown below. In particular designs, the 50Ω lines need to be adjusted to the unique dielectric coefficients and thicknesses as well as varying pick and place equipment tolerances.

USA/Canada: Toll Free: Europe: (315) 432-8909 (800) 544-2414 +44 2392-232392

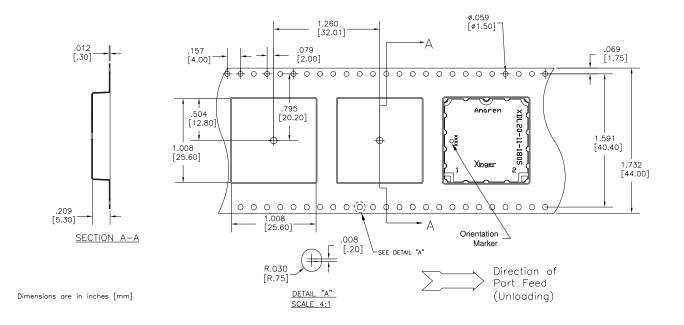

Available on Tape and Reel For Pick and Place Manufacturing.

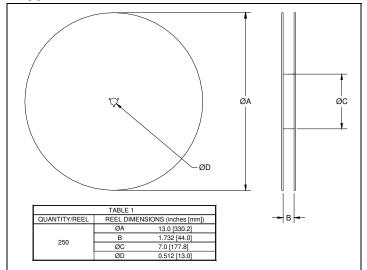

Carrier Tape

Parts are oriented in embossed tape as shown below

Reel

- Parts are available in both reel and tube
- Quantity of 19 parts available per tube

Available on Tape and Reel For Pick and Place Manufacturing. USA/Canada: Toll Free: Europe:
